

FORUM COMPANIES ISITV 2010

November 9th, 2010

The third edition of the ISITV's Company Forum will take place on November 9th, 2010, in the school's premises. It will be organized by the student association Junior Elipse. This event will allow you to get in touch with our students and young graduates. You will be able to present your activities and extend your recruitment network.

SITUATION

Located on the campus of the USTV (Université du Sud Toulon-Var, Southern University of Toulon – Var), the ISITV (Institut des Sciences de l'Ingénieur de Toulon et du Var, Institute of Engineering Sciences of Toulon and the Var) is an engineering school dispensing high-level scientific training since 1991, close to both the industrial and research milieus, with a strong international culture. Engineering students also receive training in project management, providing them with a profound insight of the social aspects of the engineering profession. The school trains autonomous, versatile and creative engineers.

3 specialities are taught :

- Marine Engineering
- Material Engineering
- Telecommunication Engineering

TO BECOME KNOWN TO PEOPLE :

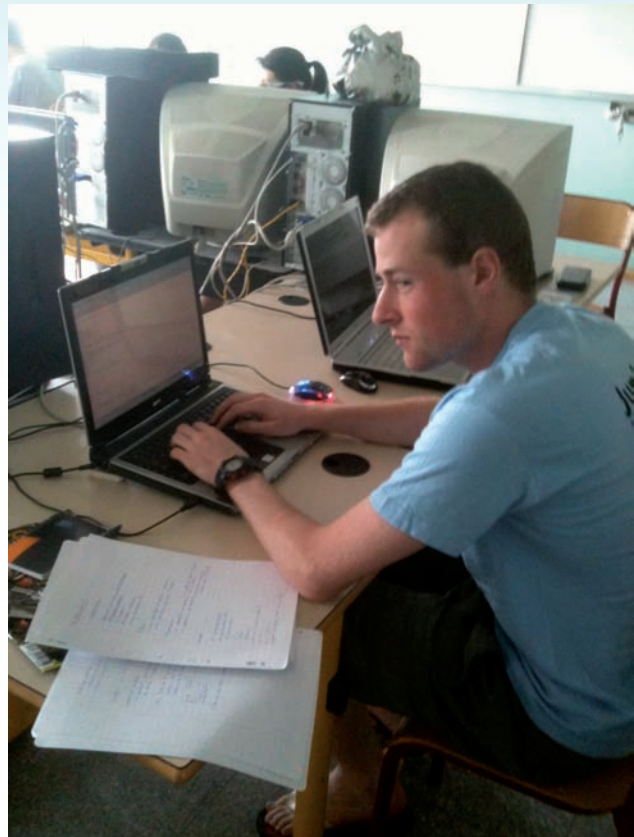

You will have at your disposal a stand with necessary furniture, electric plugs and wifi connection. The description of your company will be present in a brochure handed out to every visitor. If you wish, we can make arrangements to reserve a classroom for projector presentations.

WILL BE PRESENT :

- Young graduates, wishing to get in touch with companies to apply their competence to their first post
- 3rd year students, coming to refine their professional project and to look for a training course in companies
- 1st and 2nd year students, wishing to discover the business world and to get acquainted with the various sectors.

Will also be invited students of :

- The Southern University of Toulon-Var
- Engineering schools ISEN Toulon (Engineering Institute of electronics and Digital technology) and SUPMECA Toulon
- Business school ESCT (School of Business and Technology)

PROGRESS OF THE FAIR:

8:30 am : arrival and installation on your stand, a convivial break-fast will be offered to you

10 am : opening of the forum to students

5 pm : closure of the forum
